**"PARTNERING WITH NATURE FOR A CLEANER TOMORROW"**

## Product Details

### Appearance:

Light brown

### pH:

7.0 – 8.0

### Shelf Life:

10 Years

### Storage:

Avoid temperatures over 48°C for long periods of time. Avoid prolonged freezing.

### Packaging:

1-Gallon Pail

5-Gallon Pail

55-Gallon Drum

275-Gallon Tote

## **Micro-Blaze®** **Non-Formulated**

**Micro-Blaze® Non-Formulated** is a safe non-toxic microbial formulation used for bioremediation where the use of surfactants are not desired or permitted. It is used primarily in contaminated ground water clean-up and also in and around surface water, such as creeks, rivers, ponds, and lakes. It breaks down, degrades, and digests waste. The residue and run-off can be safely sent to the facility waste water treatment plant. The numerous strains of microbes in **Micro-Blaze® Non-Formulated** provide a synergistic degradation of the organic and hydrocarbon pollutants.

### Uses:

- Remediation of ground water contamination
- Remediation of contamination in and around creeks, rivers, ponds, and lakes

## **SURFACTANT FREE**

\* Always obtain regulatory approval prior to putting any product into a waterway
